

## GUIA DOCENTE DE LA ASIGNATURA DESCRIPTION OF INDIVIDUAL COURSE UNIT

Nombre de la asignatura/módulo/unidad y código  
Course title and code  
Nivel (Grado/Postgrado)  
Level of course (Undergraduate/Postgraduate)  
Plan de estudios en que se integra  
Degree course to which subject belongs  
Tipo (Troncal/Obligatoria/Optativa)  
Type of course (Compulsory/Elective)  
Año en que se programa  
Year of study  
Calendario (cuatrimestre)  
Calendar (Semester)  
Créditos teóricos y prácticos  
Credits (theory and practice)  
Créditos expresados como volumen total de trabajo del estudiante (ECTS)  
Number of credits expressed as student workload (ECTS)  
Descriptores  
Course descriptors

**Idioma Moderno: Inglés II**

Libre Configuración Específica

1º - 5º

6 créditos

**a) Reading :**

One of the main purposes of this subject is to enable students to make an extensive and proper use of the bibliography related to the Architecture/ Building Industry register in order to allow them easier access to specialised documents that chronicle current international scientific trends that will be useful throughout their professional careers.

**Texts:** Authentic texts will be used to support textual readings assigned in the various specialised field subjects.

**Reading- Comprehension activities:**

Skimming/ Scanning reading  
Textual organisation analysis  
Translation problems  
Summaries, outlines  
Questionnaires  
Use of technical bilingual and general use dictionaries

**b) Writing :**

To enable students to produce texts in English in the aforementioned specific area in such a way that foment active involvement in the research community. They should be able to include their papers in scientific periodicals, congress

Objetivos (expresados como resultados de aprendizaje y competencias)
